

UCU Left Conference • Book at [www.uculeft.org](http://www.uculeft.org)

# FIGHT FOR PAY, FIGHT FOR EDUCATION

**T**here's a growing mood of anger at pay cuts and attacks on conditions among education workers, as well as austerity more generally.

In HE, UCU members and others are hitting back with industrial action for better pay. The FE ballot should see college lecturers soon taking strike action as well.

There's now real potential for joint action with others to strike a blow against the Coalition's austerity programme.

This conference is the ideal opportunity to hear from other trade unionists and campaigners. There will be sessions on organising the further action, the solidarity and the networks that we need to win our disputes and defending education.

There will also be an AGM session to elect officers and a UCU Left steering committee and ratify the left's list of candidates for the coming NEC elections.

Speakers include

**Jane Aitchison**

**Jeremy Corbyn MP**

**Max Watson**
